F25-64	25.00	78.00	WIFEX F25
F37-740	37.00	102.00	WIFEX F37
F48.81	48.00	110.00	WIFEX F48

- The WIFEX System uses a standard collet body with interchangeable heads.
- The system fits directly into the standard collet sleeve and requires no modification to the machine!
- The interchangeable head can be supplied as a soft blank that can be machined by the user if required.
- The heads can also be designed and finished to suit customer's specific internal clamping applications.

Unhardened Blank Heads

Type	A	B	C	E	Ref No.
